	EVERYTHING- BETTER	
1	THAN EXPECTED	
	the introduction to very useful and compact R packages rather than the base packages.	
3		

	<p>The teacher spoke perfect English , being clear and assertive everytime he explained things. The material provided was easy to follow and complete (with further explanations, references and useful links). The course was taken at the correct pace, allowing everyone to catch up with the excercises and the explanantion itself. There was always time for questions and he adresses every single comment on the chat. The best coding course attended</p>	
4		
	<p>The host was very nice and encouraging. The course was very well-structured and had great time management. The host would use live examples and input from the audience and address input and questions directly.</p>	
6		
	<p>Die Art der Präsentation und Interaktion. Darüber hinaus waren die Inhalte des Workshops äußerst relevant und erfüllten das Ziel der Teilnahme.</p>	
10		
	<p>Time management, Clear presentation and mediation, understandable step by step instructions, uncomplicated atmosphere</p>

1	NOTHING	
4	I would have liked to have more content	
6	For me personally, it was a little bit too low level because I had previous experience with R, but it's personal.	
10	Oft waren die Softwarepakete nicht auf dem Computer installiert, aber das lag wohl nicht an der Kurse. Musste mit der IT sprechen, bis die Probleme gelöst waren....

1	MORE COURSES LIKE THIS. PAUL WAS VERY NICE EXPLAINING THE R-PROGRAM. VERY UNDERSTANDABLE	
6	I would put even more focus on handling data tables in R, like comparing columns or looping through rows.	
10	No.	

11	<p>I had difficulties with installation of the used packages. And as I`m don`t have administrator rights for the computer I have to check upload/installation options at my institute. Therefore I would wish in preperation of the course get informations about the necessary packages, so I could clarify in advance framework conditions and possibilities.</p>
