
Course Assessment Data Science in the Natural Sciences with R (Part2)
17.03.25 - 21.03.25 (9:00 -13:00)

Ergebnisse

Umfrage 498193

Anzahl der Datensätze in dieser Abfrage:	15
Gesamtzahl der Datensätze dieser Umfrage:	15
Anteil in Prozent:	100.00%

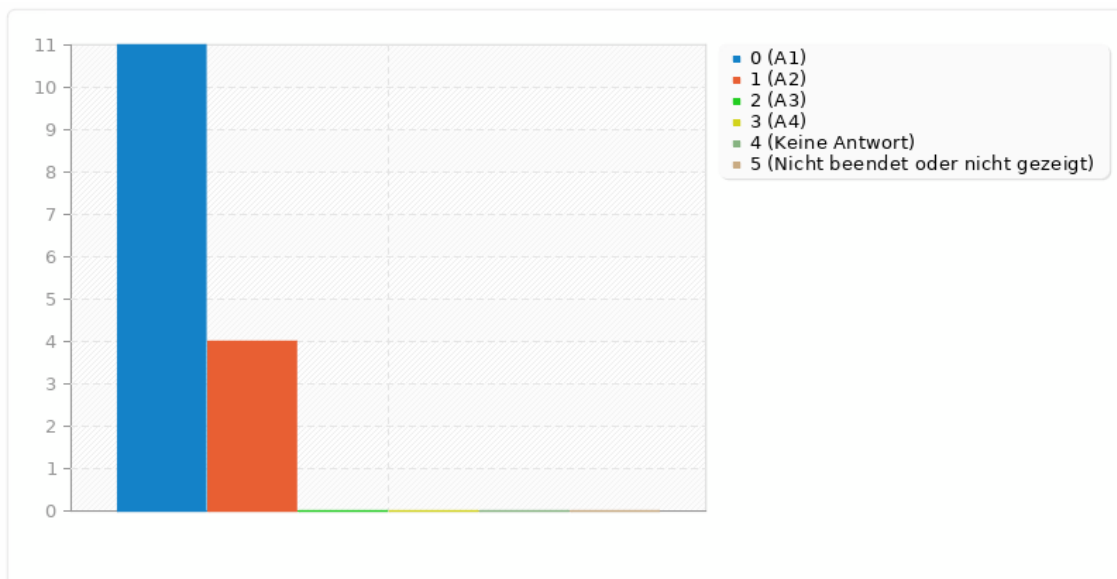

Zusammenfassung für Q00

Overall, how were the expectations you set for the course met?

Antwort	Anzahl	Prozent
Very good (A1)	11	73.33%
good (A2)	4	26.67%
less good (A3)	0	0.00%
were hardly fulfilled (A4)	0	0.00%
Keine Antwort	0	0.00%
Nicht beendet oder nicht gezeigt	0	0.00%

Zusammenfassung für Q00

Overall, how were the expectations you set for the course met?

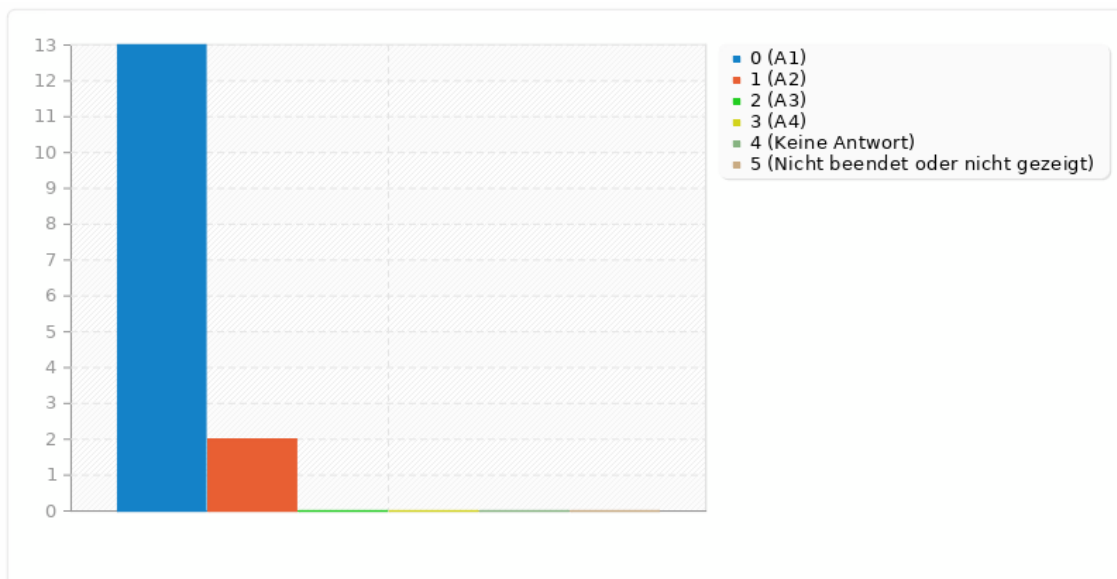

Zusammenfassung für didaktik

How do you assess the didactic design (topics, choice of materials, examples)?

Antwort	Anzahl	Prozent
Very good (A1)	13	86.67%
good (A2)	2	13.33%
less good (A3)	0	0.00%
were hardly fulfilled (A4)	0	0.00%
Keine Antwort	0	0.00%
Nicht beendet oder nicht gezeigt	0	0.00%

Zusammenfassung für didaktik

How do you assess the didactic design (topics, choice of materials, examples)?

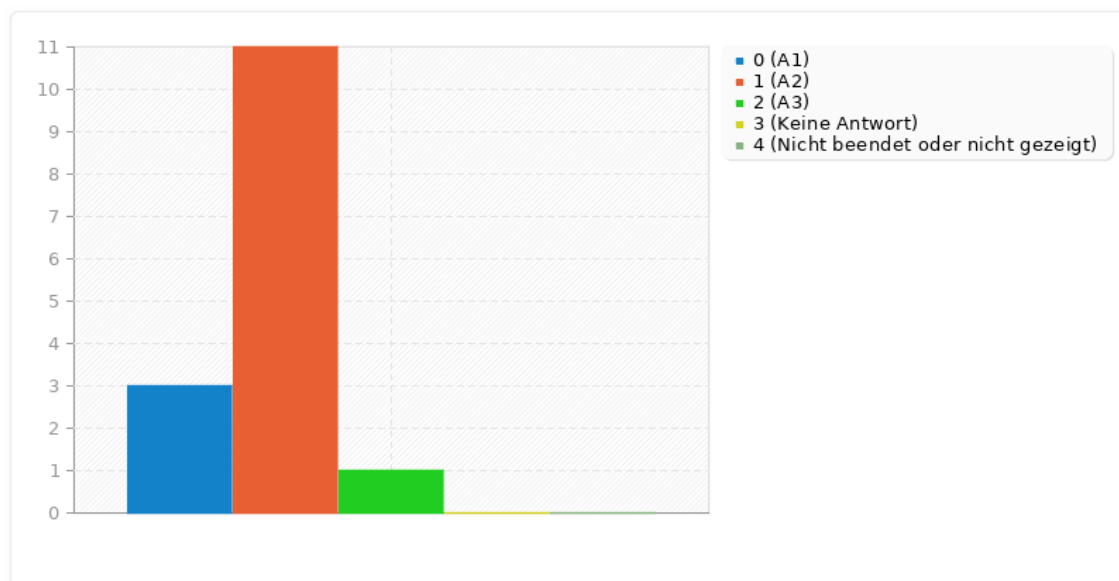

Zusammenfassung für niveau

What was the level of the course like for you?

Antwort	Anzahl	Prozent
was too high for me (A1)	3	20.00%
was just right for me on average (A2)	11	73.33%
was too low for me (A3)	1	6.67%
Keine Antwort	0	0.00%
Nicht beendet oder nicht gezeigt	0	0.00%

Zusammenfassung für niveau

What was the level of the course like for you?

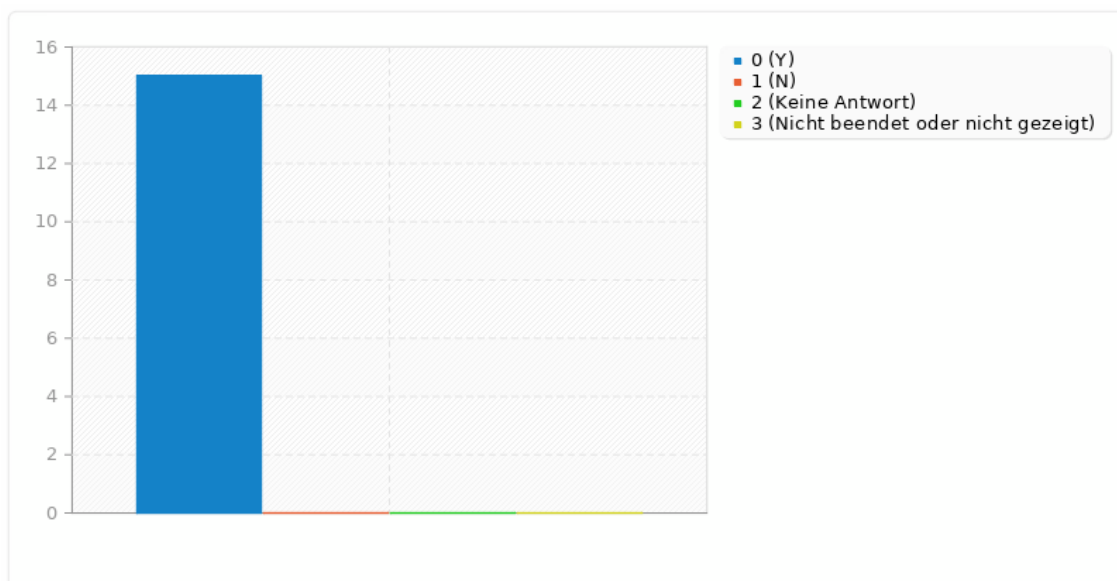

Zusammenfassung für Diskussion

Was there enough time for discussions?

Antwort	Anzahl	Prozent
Ja (Y)	15	100.00%
Nein (N)	0	0.00%
Keine Antwort	0	0.00%
Nicht beendet oder nicht gezeigt	0	0.00%

Zusammenfassung für Diskussion

Was there enough time for discussions?

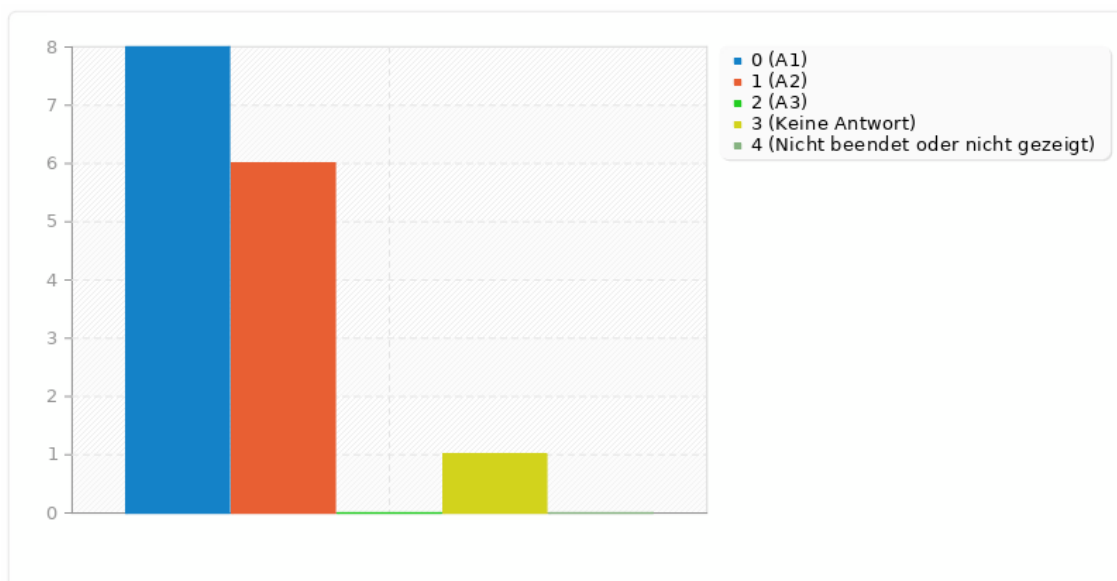

Zusammenfassung für praxis

How were the practical exercises on the PC for you?

Antwort	Anzahl	Prozent
very good (A1)	8	53.33%
good (A2)	6	40.00%
less good (A3)	0	0.00%
Keine Antwort	1	6.67%
Nicht beendet oder nicht gezeigt	0	0.00%

Zusammenfassung für praxis

How were the practical exercises on the PC for you?

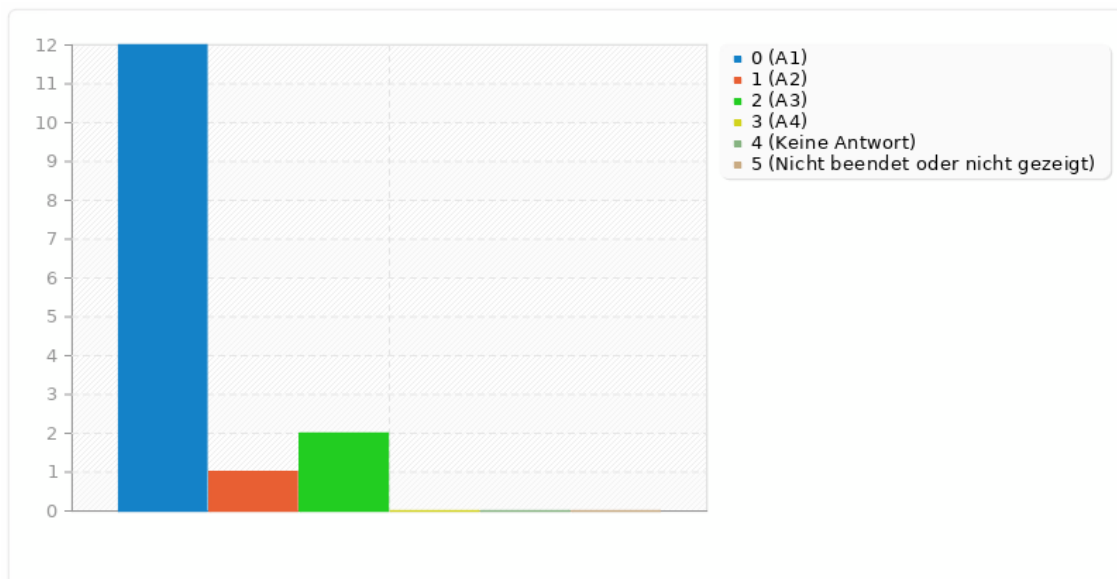

Zusammenfassung für skript

Rate the script especially from the point of view of later reference!

Antwort	Anzahl	Prozent
very good (A1)	12	80.00%
good (A2)	1	6.67%
adequate (A3)	2	13.33%
were hardly fulfilled (A4)	0	0.00%
Keine Antwort	0	0.00%
Nicht beendet oder nicht gezeigt	0	0.00%

Zusammenfassung für skript

Rate the script especially from the point of view of later reference!

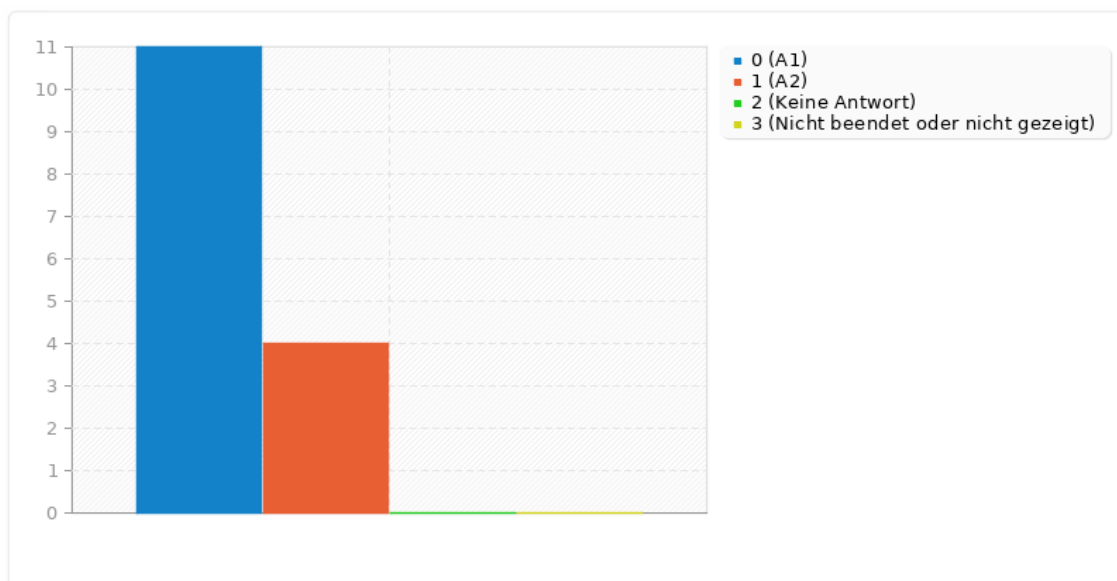

Zusammenfassung für statistik

Did you have enough statistical knowledge to participate in the course without difficulty?

Antwort	Anzahl	Prozent
yes (A1)	11	73.33%
no (A2)	4	26.67%
Keine Antwort	0	0.00%
Nicht beendet oder nicht gezeigt	0	0.00%

Zusammenfassung für statistik

Did you have enough statistical knowledge to participate in the course without difficulty?

Zusammenfassung für motivation

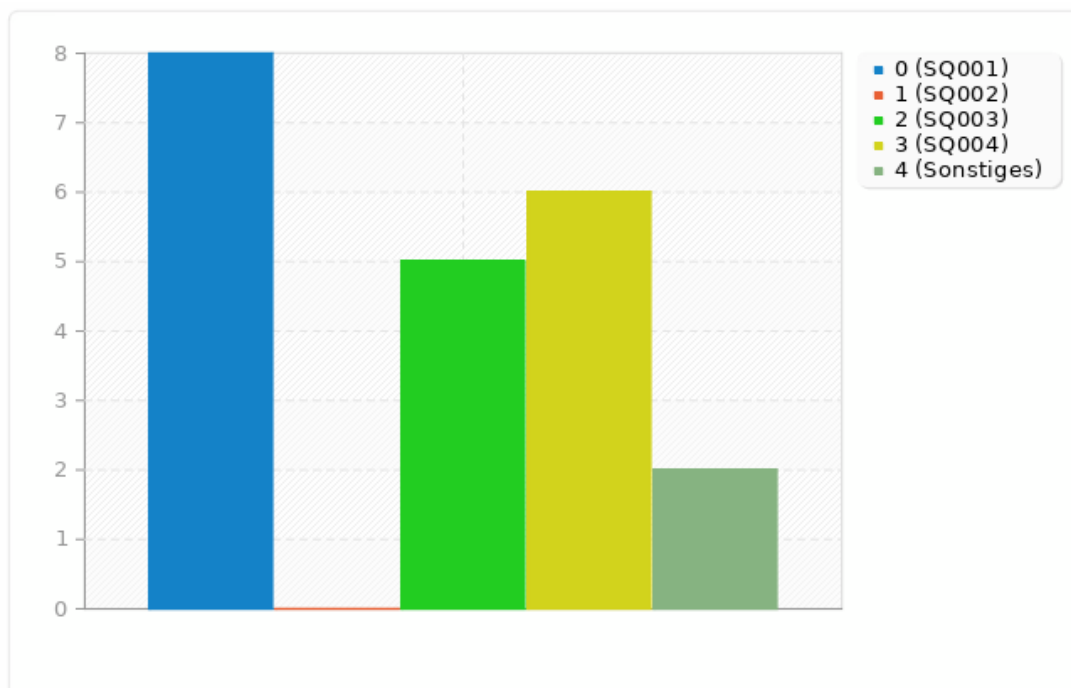

What was your motivation to participate in the course (multiple answers possible):

Antwort	Anzahl	Prozent
Urgent work with R is on the agenda for me (SQ001)	8	53.33%
I was pushed to participate (SQ002)	0	0.00%
I saw the course as a taster course, but I don't necessarily need it (SQ003)	5	33.33%
At last a course on this topic! (SQ004)	6	40.00%
Sonstiges	2	13.33%

ID	Antwort
5	I want to start to work with R. Follow up course after the first one.
14	development of new skills, need to find better software to deal with data analysis

Zusammenfassung für motivation

What was your motivation to participate in the course (multiple answers possible):

Zusammenfassung für gefallen

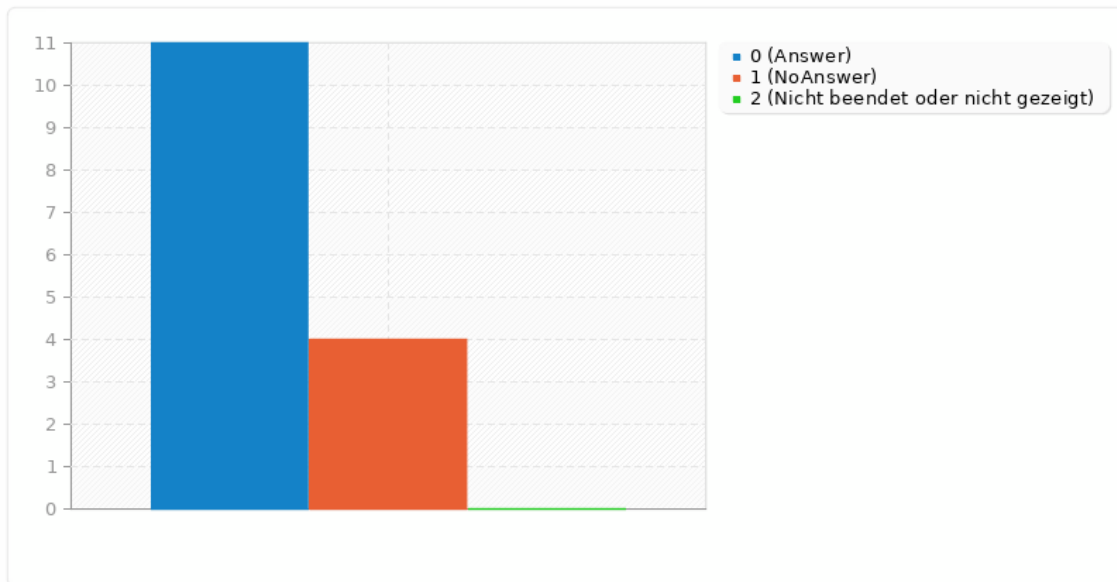

What did you particularly like about the course?

Antwort	Anzahl	Prozent
Antwort	11	73.33%
Keine Antwort	4	26.67%
Nicht beendet oder nicht gezeigt	0	0.00%

ID	Antwort
2	instant and convenient interaction, and thus we can solve our problems immediately
3	The facilitator is excellent. Very nice examples and code for adaptation, I like that when learning new software
4	Almost everything, but i specifically liked the part of experimetal designs and model selection creteria
5	time and patience for questions
6	There was always room for questions and discussions
7	very good explanations, very helpful tips and tricks, good combination of statistical background and practical R, very easy to listen to and understand, Paul is a really good presenter, course structure is great (with the small breaks per hour)
9	well structured with good examples to explain the different models.
10	The explanations by drawing, the well-organized online skript that is accessible on the website
12	time management, discussion parts, topics, lecturer attitudes
14	Apart from programing, we were also given a statistical knowledge very good examples were given (visualisation of problem, drawings) to explain some important things, models, experiment design and so on
15	The course content was important for me. I got an overview about some of the important topics in data analysis. Mr Schmidt is also a very good instructor.

Zusammenfassung für gefallen

Zusammenfassung für nichtgut

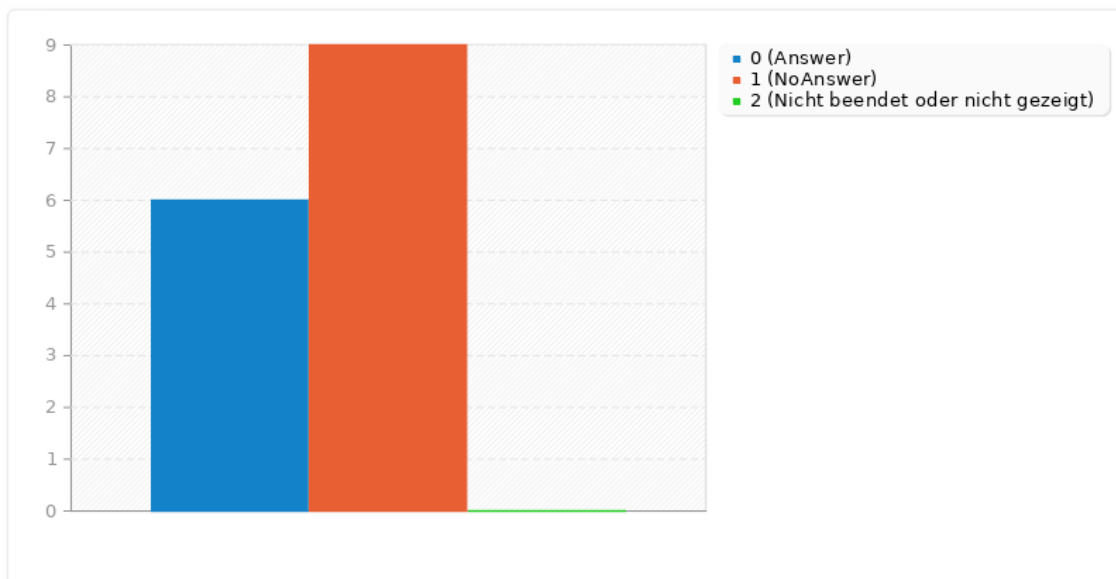

What did you not like about the course?

Antwort	Anzahl	Prozent
Antwort	6	40.00%
Keine Antwort	9	60.00%
Nicht beendet oder nicht gezeigt	0	0.00%

ID	Antwort
2	nothing
4	I dont think there is any. Everthing was interesting and relevant for my research.
6	I would have liked that the explanations that were given during the course would be part of the online material.
9	theres nothing to mention here
10	It spent a little too much time on topics that I already knew (which is more of a personas issue) and there was little time for exercises which were rather simple. I think spending more time on an exercise by ourselves would have helped to understand the topics more.
15	Sometimes the internet connections and interuption by others while in an important discussion.

Zusammenfassung für nichtgut

What did you not like about the course?

Zusammenfassung für anregung

Do you have any other suggestions that should be taken into account in future courses in course planning/announcement/implementation (including topic selection)?

Antwort	Anzahl	Prozent
Antwort	8	53.33%
Keine Antwort	7	46.67%
Nicht beendet oder nicht gezeigt	0	0.00%

ID	Antwort
2	no
3	We could consider using some datasets from participants too and show how they can be adapted to given sections of the workshop. This way, we can easily fix the analysis challenge for one or two people in real time.
5	announce room for problems with own data
6	Maybe a little test before participation would help to see which experiences the participants have before so that they could be directed to the course that fits their needs (part 1 - part 2)
9	i dont have
10	maybe more time for exercises (see previous answer)
14	For sure information that statisical knowlege make your study process much more comfortable. I didn't know which level is required. Maybe a statistical intro (or even a separate course) could be a a good complement to this course ? And something very individual: for me it would work better to have a course 1 day weekly during 5 weeks, instead of the whole week every day. That would give me more time to just practice and solving a problem that was discussed. Or just simply memorize some commands/codes etc.
15	It would be nice to have a course on Genomic data analysis, GWAS, QTL analysis etc.
